# Welcome to IEApp

This is the Installers tutorial on registering an Account and using the site
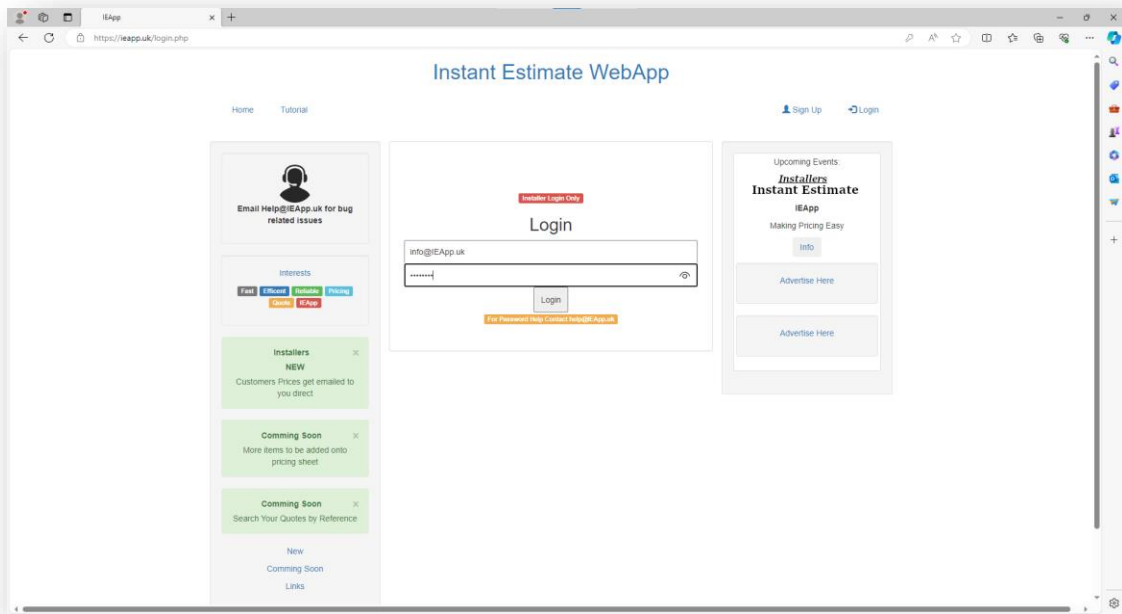

Firstly, go to www.IEApp.uk and you will see the following

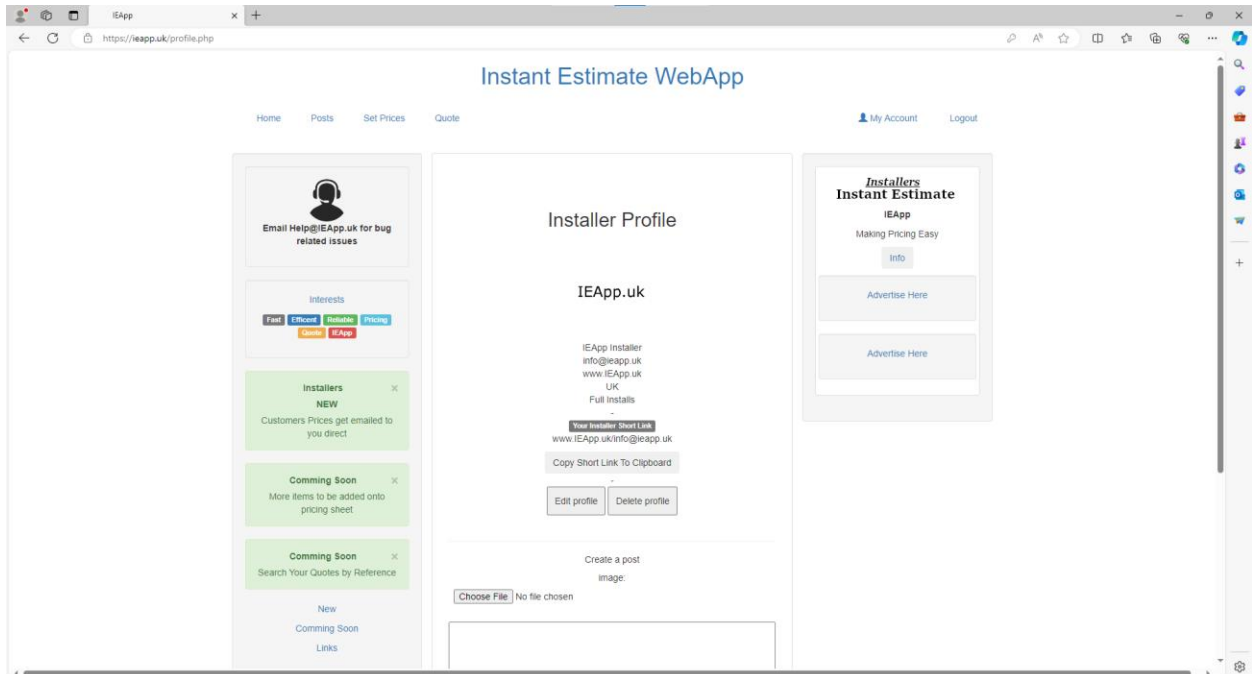

Click the 👤 Sign Up button

Fill out the form with your information and click sign up.

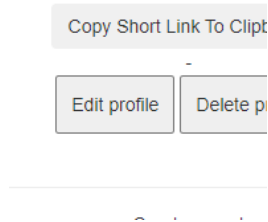

You will then be directed to the login screen.

Enter your details you used when making the account

You will then be directed to the profile screen.

Here you can edit your profile information by clicking edit profile.

Edit all your information here and upload a company logo, this information will be viewable by your customers when they are viewing your page and getting a price, click save and all your information will be updated

Set Prices

click set prices in the menu
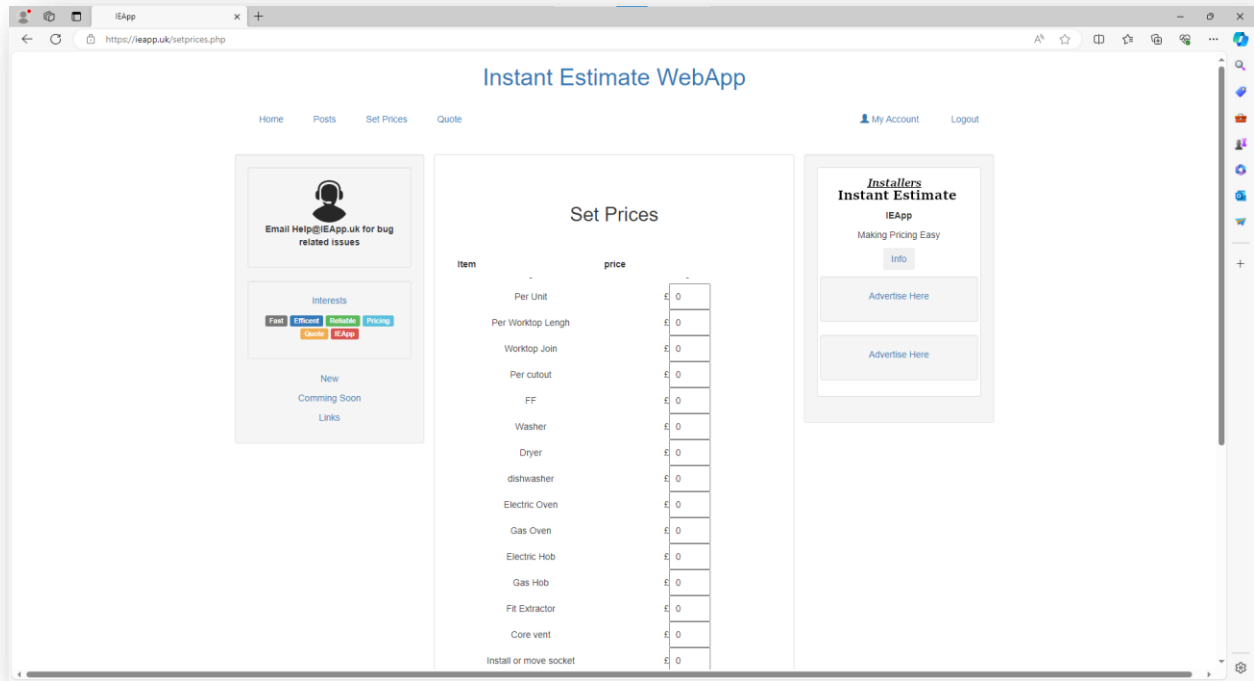

Fill out all your individual prices, these are all per item, with area work per m2.

When finished click save, these can be changed at any time.

Doing a price

Click quote in the menu

Use Reference to find QUOTE in future	Customer@em

Get Price

Fill in the form, not forgetting to use a reference so you can refer back to it in the future.

Click Get Price
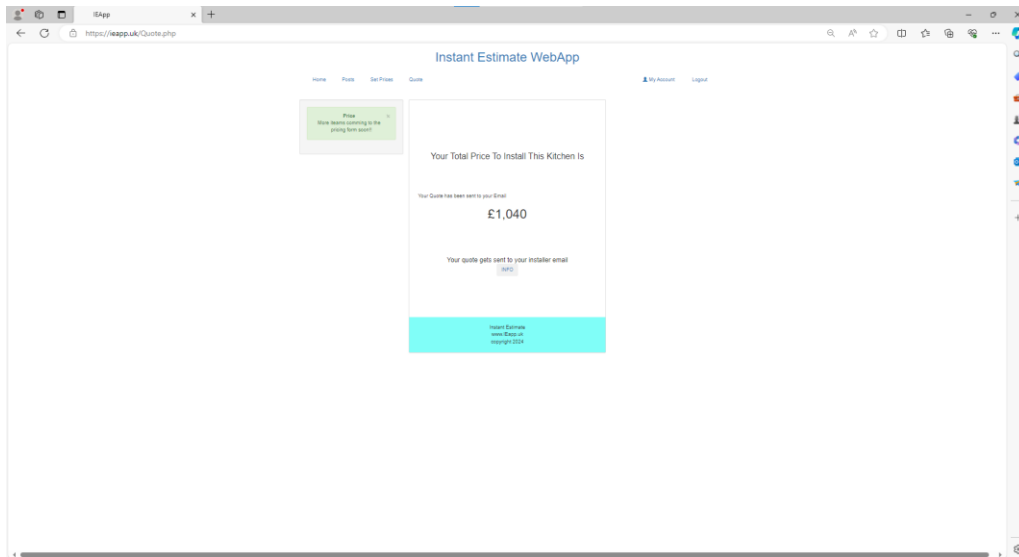

You will then see the final price to complete this kitchen, the quote is also sent to your email so you can save it for later.

Posts

You can upload, edit and delete posts with or without images to share with potential customers and other members. The posts you upload are shown on your custom site when customers are requesting a price.

Sharing your Page with customers

Now you have set up the basics for IEApp, you can share your short code link with customers so they can get an instant online estimate from you.
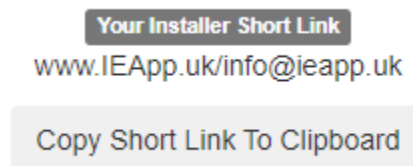

This link can be found on your account page
